In the Title

A' Please amend the title to read as follows -- EXTERNAL I/O AND COMMUNICATIONS INTERFACE FOR A REVENUE METER--

In the Abstract

Please replace the text of the existing abstract with the following text:

A2 --A revenue meter includes electronics for measuring the delivery of electrical energy from an energy supplier to a consumer through an electric circuit. An interface link connects to the revenue meter. An I/O and communications device connects through the interface link to the revenue meter. The I/O and communications device may also connect to a second electric circuit. The I/O and communications device uses a serial interface to communicate with the revenue meter. The I/O and communications device provides one or more of analog inputs and outputs, digital inputs and outputs, and communications ports.--

In the Specification

On page 1, in the Cross Reference to Related Applications section, please delete the text from line 4 to line 28, and insert the following text thereof:
